### **JAWHORSE: THE MOST POWERFUL PORTABLE WORKBENCH-CLAMPING SYSTEM ON THE PLANET**

*Rockwell's Portable Workbench Frees Up Trademen's Hands and Increases Their Grip*

**Charlotte, N.C. — Rockwell® Power Tools**, a brand of the Positec Group of companies, is introducing the world's most powerful portable workbench and clamping system, **The Jawhorse**. This heavy-duty workbench-clamping system weighs only 43 pounds, yet features a trademarked hands-free foot-pedal technology that will compress the workbench's jaws with up to 2,200 pounds of gripping clout.

The Jawhorse can handle 220 pounds of load, thanks to its powerful jaws, 'click-home' locking legs, 37-inch spread and non-slip rubber-padded feet, plus an additional stabilizing force when the tradesman loops a foot through the built-in stirrups at the workbench's base. Its compact 30" x 14" x 14" folded size makes it easily loadable onto the truck and, with its built-in wheel, the Jawhorse can roll across rugged job sites and around the shop.

According to Eric Moore, Positec PR and marketing manager, "Anyone who ever had to wrestle a paneled door or 2 x 12 board onto a sawhorse understands the value of a hands-free clamping technology. The Jawhorse's foot pedal is like having a helper on the job site—a really big, really strong helper! It lets the craftsman apply a tremendous force to the clamping jaws by engaging the large muscle groups of the leg rather than the craftsman's hands."

(continued)

## **JAWHORSE FEATURES**

- Clamping range: 37"
- Clamping force: 2,200 lbs max
- Maximum load: 220 lbs
- Folded size: 30" x 14" x 14"
- Standing size: 39" x 39" x 35"
- Weight: 43 lbs
- Built-in Anvil 3" x 8"
- Size of Jaws 8" x 3"
- MSRP \$199.00
- Stroke length\* 15/16"

*\*Maximum distance the jaw will travel with each stroke (pump) of the foot pedal.*

## **Optional Accessories**

- Log-holding jaws for sawing and chainsaw applications
- Welding station and jaws to secure welding work
- Accessory bag for holding frequently used tools and accessories

###

### **About Rockwell®**

Rockwell® power tools are a part of the Positec Group of companies, which have been designing, engineering and manufacturing power tools since 1994. The Rockwell brand offers the performance-minded do-it-yourselfer and the price-conscious tradesman with excellent options compared to higher priced professional power tool brands. Rockwell ShopSeries™ is a sub-brand that focuses on lighter duty home and workshop applications. For more information about Rockwell, visit [www.rockwelltools.com](http://www.rockwelltools.com)
